- **Patient safety:** Nurses are responsible for ensuring the safety of their patients, which includes preventing falls, medication errors, and other accidents.
- **Infection control:** Nurses must be able to identify and prevent the spread of infections, which can be a major threat to patient safety.
- **Pharmacology:** Nurses must have a basic understanding of pharmacology, including the different types of medications, their side effects, and their interactions.
- **Nutrition:** Nurses must be able to assess patients' nutritional needs and provide appropriate dietary guidance.
- **Communication:** Nurses must be able to communicate effectively with patients, families, and other healthcare professionals.
- **Critical thinking:** Nurses must be able to think critically and make decisions in order to provide the best possible care for their patients.

The NCLEX-RN exam uses a variety of different question types, including multiple choice, select all that apply, and drag and drop. Each type of question requires a different strategy for answering correctly.

**Multiple choice:** Multiple choice questions are the most common type of question on the NCLEX-RN exam. To answer multiple choice questions correctly, you must first read the question carefully and identify the key concepts. Then, read each answer choice carefully and eliminate the ones

that are clearly incorrect. Finally, select the answer choice that best answers the question.

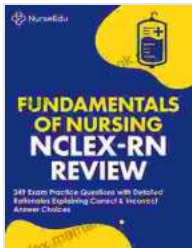

**Select all that apply:** Select all that apply questions require you to choose all of the answer choices that are correct. To answer these questions correctly, you must first read the question carefully and identify the key concepts. Then, read each answer choice carefully and select all of the ones that are correct.

**Drag and drop:** Drag and drop questions require you to match items in one column to items in another column. To answer drag and drop questions correctly, you must first read the question carefully and identify the key concepts. Then, read each item in the first column and match it to the correct item in the second column.

- **Get a good night's sleep before the exam.** You will need to be well-rested in order to perform your best on exam day.
- **Eat a healthy breakfast before the exam.** You will need to have enough energy to get through the exam without getting tired.
- **Arrive at the exam site early.** This will give you time to relax and get settled in before the exam begins.
- **Read the instructions carefully before answering any questions.** Make sure you understand what is being asked before you select an answer.
- **Don't spend too much time on any one question.** If you are stuck on a question, move on to the next one and come back to it later.

- **Guess if you don't know the answer.** There is no penalty for guessing on the NCLEX-RN exam, so don't leave any questions blank.
- **Don't be afraid to ask for help.** If you are having trouble with a question, ask the proctor for help.

The NCLEX-RN exam is a challenging test, but it is essential to pass in order to obtain your license to practice as a registered nurse. By following the tips and strategies outlined in this article, you can increase your chances of success on exam day.
