Genesis and History

The origins of the BOEF can be traced back to the early days of the Cold War, a period of heightened geopolitical tensions. Recognizing the need for a highly specialized unit capable of executing unconventional warfare tactics, the United States government established the BOEF under the auspices of the Special Operations Command (SOCOM).

Initially, the BOEF was a small and secretive force, operating primarily in Southeast Asia during the Vietnam War. However, its success in conducting covert operations, including reconnaissance missions, sabotage, and assassinations, quickly gained recognition. Over the decades, the BOEF

has evolved and expanded, becoming a formidable component of the U.S. military's clandestine capabilities.
